Object: letter of reference for Devan Nambiar

Madam/Sir,

I am writing this letter of reference for Devan Nambiar on behalf of the Alzheimer Society of Brant, Haldimand Norfolk, Hamilton Halton. Our organization provides health promotion, support and education services to people with dementia and those who are at greatest risk of developing dementia and their care partners.

I met Devan at a Conference in 2015 where he presented on the topic of LGTBQ and Aging. His presentation was very interesting but most importantly, he was inspiring!

He made such a strong impression on me that when we were looking for a presenter for our Counsellors' Professional Development Day in 2016, I immediately thought about him. He presented on the same topic and the feedback from our staff was unanimously positive.

Earlier this year, we invited him to speak again, this time at our all staff meeting. He gave a presentation on Positive Space. Once again, our experience was positive and we received several unsolicited feedback from staff about how much they enjoyed his presentation style and how much they learned from him.

Devan is an excellent presenter. He obviously knows his topic very well and reads his audience to adapt his presentation and keep it dynamic & interesting. Devan is also very professional and friendly which makes it easy and pleasant to collaborate with him.

I would highly recommend Devan as a presenter and as an expert in his field.

Sincerely,

JoAnne Chalifour, Director Quality & Community Engagement
